REPAIR & REUSE DIRECTORY

Tipperary

Tipperary County Council, as part of the Southern Waste Management Region, is endeavouring to encourage people to reduce consumer consumption by promoting the repair of household items rather than disposing of them, thereby reducing waste generation and associated environmental impacts. Waste Prevention is one of the main principles of the current Southern Regional Waste Management Plan.

The list of repair services was collated by Tipperary County Council. Tipperary County Council does not advocate or endorse any listing. Prior to using any service, please ensure that you are satisfied with the service provider's relevant experience, authorisation and liability cover.
