

1 THIS DRAWINGS IS COPYRIGHT
2 DO NOT SCALE OFF THIS DRAWING

- Notes:
- This drawing is for information only. All dimensions are to be checked on site and adapted to on-site conditions and constraints.
 - All materials and construction details are subject to final design and/or approval by the Project Engineer to ensure compliance with current relevant legislation.
 - Due to concerns relating to storm water drainage the existing drainage system should be examined for faults prior to the commencement of construction works.

LEGEND:

1 005 Detail number
Drawing reference

All re-paved areas: existing utility poles removed and overhead wires placed underground

Note: any works affecting the National Road must be approved by the National Works Authority before any works can commence.

The Lower River Suir is designated as a Special Area of Conservation (SAC). Every caution must be exercised not to disturb the protected habitat and species of the river Suir and its banks. All works in this area are therefore subject to the relevant Habitats Regulation. An ecological impact assessment and mitigation measure may be required before the works can commence.
